

Pindari & Kafni Glacier Trek

Location	Kumaon Himalaya, Uttarakhand
Area	Bageshwar
Grade of trek	Moderate
Co-ordinates	30°14'57"N 80°4'21"E
Max. Altitude	3900 m
Season	mid May - September
Duration	10 days

The most easily accessible glacier in the Kumaon region, the Pindari Glacier has a beauty of its own. Situated between the snow-capped Nanda Devi and Nanda Kot Mountains, Pindari is a big and steep glacier measuring 3km in length and 0.25km in breadth. River Pindar originates from this Glacier and flows down to confluence into the river Alaknanda. The trekking route to the glacier traverses along the southern wilderness of the Nanda Devi Sanctuary offering some beautiful views of peaks like Panwali Dwar (6683m) and Maiktoli (6803m). A trek to the Pindari Glacier is a "soft adventure" experience and well within the capacity of any trekker who is amply rewarded by the magnificence and grandeur of the towering Himalayas.

Trek Itinerary

Day 00: Overnight train from Delhi to Kathgodam

Day 01 : KATHGODAM - travel to SONG-LOHARKHET (1750 m),6-7 hrs.
Our jeep is ready to take us further deep into mountains. Overnight at Rest house.
